## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to a holding device.

Group II, claim(s) 7 and 8, drawn to a method for hardening together an item.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The common technical feature is old in the art as evidenced by Younie et al. (US 621700).

Younie et al. teaches the following:

- hardening an item (col. 11 lines 50-57)
- support elements (col. 7 lines 35-45)
- the support elements exert a differentiated pressure on the item (col. 4 lines 10-15 and col. 14 lines 40-45)
- introducing the unhardened item and supporting elements into a pressure tank (col. 11 lines 50-57).
